OUR VISION

Advanced Primary Care Group are an innovative clinical education and staffing services provider, delivering real-time solutions to practices throughout the UK. We have developed a dedicated and experienced recruitment team which has built strong relationships within the sector on the basis of a consistent and reliable service.

ABOUT US

Advanced Primary Care Group has been developed by Clinical Pharmacists with many years' experience in Primary Care and General Practice.

Advanced Primary Care Group utilises the skills of Clinical Pharmacists and Advanced Clinical Practitioners to help support General Practice and reduce GP workload. This is one of the 10 high impact actions and forms part of the ten years NHS plan. Our clinicians have experience of working in practices, federations and networks.

We offer an initial consultation to identify areas in your practice where you could make potential savings.

PCN PHARMACISTS

Primary Care Networks have been tasked with introducing Clinical Pharmacists into General Practice. Outsourcing this pharmacists' support from APCG means that you can have a fully competent pharmacist who are trained to work remotely and on-site to make a real difference within your network.

Our Pharmacists are familiar with the new Network contract requirements and are able to facilitate the smooth integration into the Primary Care Network.

APCG Pharmacists are trained appropriately to work at each level. We have a robust system to gauge clinical potential of our clinicians.

Our Advanced Clinical Pharmacists and Advanced Clinical Practitioners have a wealth of experience in providing support for general practice .

Whether you are looking for long term or short term support, we have the solution for you.

APCG- Training and Development Bridge

Considering the practices' priorities, we work accordingly based on a Pharmacist Tier Framework to provide pharmacists' expertise at the required level.
